

— WEB DESIGN · LOCAL SEO

YOUR WEBSITE SHOULD BE YOUR BEST SALESPERSON.

Built by someone who gets it — in Lake Havasu, for the businesses who matter here.

**HAVASU
WEB STUDIO**

Local SEO

Show up when neighbors search "near me." Google Business, on-page, and review systems that actually move rankings.

Custom websites

Hand-built, fast-loading sites — no page builders, no templates. Designed around the way your customers actually buy.

Analytics & growth

Real numbers, plain English. We watch what works, kill what doesn't, and double down on the calls that pay your bills.

ABOUT THE STUDIO

One designer. Lake Havasu. No middlemen.

I'm Derek — I run Havasu Web Studio out of Lake Havasu City. I work with local trades, services, and restaurants across Mohave County who are tired of paying out-of-state agencies for sites that don't earn. Every project goes through me, start to finish.

WHAT YOU GET

A site that ranks. A site that sells.

Most local websites are invisible on Google. Yours shouldn't be. I build sites that rank for the searches your customers actually type, then turn that traffic into calls, bookings, and revenue you can track. No jargon. Real results.

FOUNDER'S OFFER · LIMITED

First 5 customers — build fee waived.

New studio, real work, real proof. Pay only the monthly. 4 spots left.
